

COLLEGE SUCCESS SERIES

The Aztec **College Success Series** offers students a way to prepare for the rigors of the college entrance process. This Aztec series includes subject areas instruction and practice, assessments, and represents a variety of item types.

DIGITAL SOLUTIONS

College Success

Aztec understands that Algebra is the single most failed course in community colleges across the country, and one of the biggest hurdles to getting a college degree. With a strong focus on Algebra, Aztec's College Success Series in Mathematics, helps prepare students for this requirement. Students will be more confident and ready to take math placement exams at the community college.

FEATURES INCLUDE THE FOLLOWING:
