

PHARMACY TECHNICIAN TRAINING

Interactive Training That Works

The National Leader in Career & Technical Education for Pharmacy Technicians

The Aztec PassAssured Pharmacy Technician Training presents students with a curriculum that was co-developed by community colleges and pharmacists that represents the essential functions of a pharmacy technician. Best-in-class content provides students with the technical preparation needed to pass the national exams for certification and the workforce skills needed to be prepared for employment.

PREPARATION FOR NATIONAL CERTIFYING EXAM

FEATURES

- 300 Hours of Curriculum**

Created in a working pharmacy, and in collaborations with community colleges, PassAssured's curriculum represents the actual duties of a pharmacy technician from greeting customers to performing aseptic techniques.

- Learn at Your Pace**

Self-paced, this multimedia training method allows learners to study for either of the national pharmacy technician certification exams as well learn the workforce readiness skills necessary to be successful in a working pharmacy.

- Web Delivered Instruction and Assessment**

Aztec's unique web-based instruction and testing system utilizes a step-by-step approach that rewards the student's successes as they move through prescribed and scaffolded content.

- Powerful Learning Management System**

Instructors and administrators have the power of Aztec's Learning Management System, reporting functionality, and student monitoring features.

- ePUB**

Comprehensive ePub provides access to the online content, but in a format that enhances access to multiple modality learning.

- Tablet Ready**

Whether students are using a desktop computer, a tablet, or a smart phone, Aztec's industry-leading learning system will work with any device.
