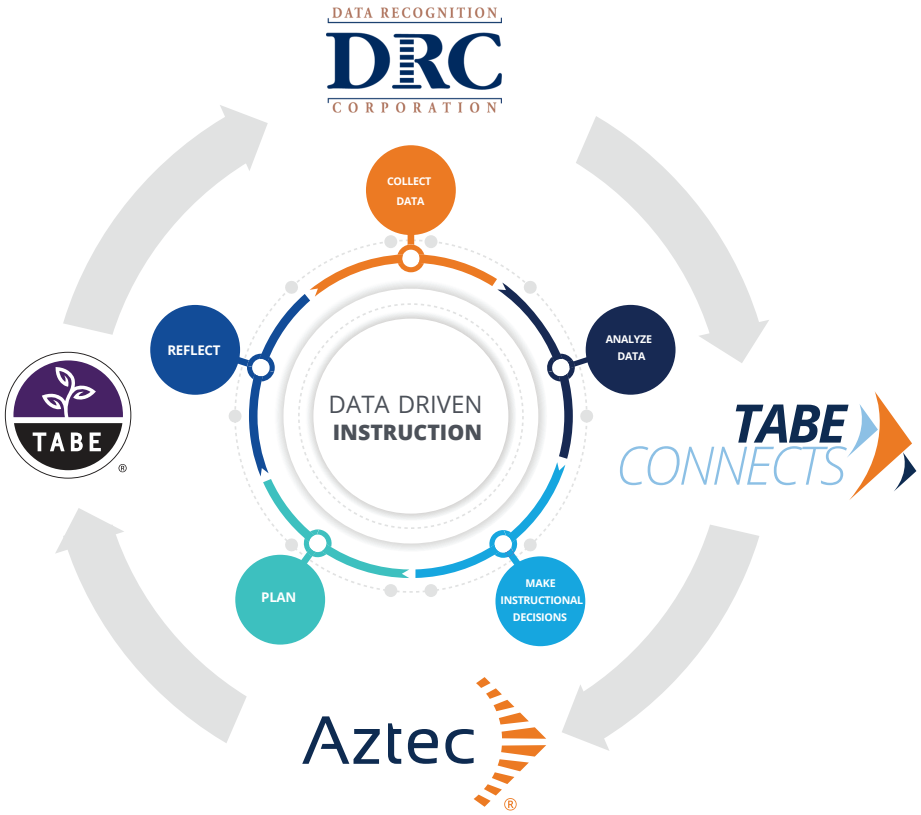
Aztec **TABE CONNECTS** - ABE DIGITAL SOLUTIONS

INDIVIDUAL LEARNING PLANS
Based on Real-Time Student Data



TABE CONNECTS

HARNESS STUDENT DATA
Saving Valuable Time, While Improving Performance

TABE CONNECTS is a powerful tool that **creates individual learning plans** based on real-time student data, reducing the time it takes for students to go from assessment to remediation and driving improved student performance outcomes.

TABE CONNECTS provides powerful data integration and **automatically imports students' TABE 11/12 assessment data** into Aztec Software's Learning Management System, creating individualized learning plans for students, while still allowing instructors to shape learning goals.

POWERFUL RESOURCE FOR INSTRUCTORS
Ensuring Targeted & Effective Learning

TABE CONNECTS further empowers learners on Aztec's platform through **individualized learning plans** and furthers Aztec's mission of providing adults access to the tools that will enable them to succeed.

TABE CONNECTS focuses on **measurable skill gains and educational functioning level gains** by directly linking student scores to lesson plans.

TABE CONNECTS includes the powerful curriculum from the *A Tutor for TABE* series.
